

NASTRO-SB™ -R5-R6

Choosing taping with logic

SEMI-AUTOMATIC CASE SEALER

100%
MADE in ITALY

NASTRO-SB™ - R5 - R6

Nastro-SB™ R5 - R6 is a range of semi-automatic heavy duty case sealing machines designed and **engineered by SIAT specifically for** small, medium, and large **random box sizes**. It is the first range of semi-automatic taping machines **with logic on board**. Nastro-SB™ R5 - R6 is the ideal case sealing machine for a variety of industries like food&beverage, chemical, clothes and e-commerce.

SPECIFICATIONS

Production Capacity: 900 boxes/hour

Case type: RSC - FEFCO 0201

Max case weight: 32 kg

Box size		Medium	Large	Very Large
Box Dimensions S Version (mm)	Length (L)	150 - ∞	150 - ∞	200 - ∞
	Width (W)	150 - 500	150 - 650	150 - 800
	Height (H)	90 - 500	90 - 650	90 - 800
Box Dimensions L Version (mm)	Length (L)	150 - ∞	150 - ∞	150 - ∞
	Width (W)	80 - 500	80 - 650	80 - 800
	Height (H)	50 - 500	50 - 650	50 - 800

FEATURES & BENEFITS

- » Fast and flexible - fast processing of a wide range of random boxes, self-adjusting immediately when the box is loaded
- » Logic on board - patented variable speed to increase machine capacity up to 70%
- » Faster than standard case sealers - thanks to patented variable speed functions
- » Energy saving device - included as standard
- » Smart and safe - motors and conveyors stop after a defined time when no cartons are detected
- » Instant access to the machine diagnostic - to optimize service and save resources and time with information already available on the machine display
- » IoT module with SIAT Optirun platform - to monitor machine performance, productivity, working time, and tape consumption, on request
- » 50 mm minimum box height
- » Linear belt conveyor movement
- » End/broken tape alarm device on request

monitor your machines at any time

SIAT Group is the market leader in the production of machines for the packaging industry. It offers a wide range of machines for taping, wrapping, and strapping applications.

We produce more than 17.000 pieces of equipment per year and have manufacturing them for more than 50 years, proud to be recognized by our customers as the premium brand of machines for secondary packaging.

We offer products for many industries: food & beverage, e-commerce & logistics, packaging, and consumer products, resulting in a strong and durable offer for every need and every environment.

100%
MADE in ITALY

Our machines are designed to:

Increase customer productivity

Our machines boast an average life of 25 years, while our customers return from their investment in only 4 to 5 months.

Lower the cost of ownership

Our machines require easy maintenance and simple installation. They are developed and designed to be user-friendly and for different applications of our customers, thanks to a research and development department that is always ready to respond to every need.

Reduce environmental impact

We strongly believe in pursuing this goal by following our vision: the future of packaging involves a strong collaboration with our customers to find the most suitable and safe solution. Each machine is designed to minimize consumable use, reduce waste and use less energy.

Be connected

Thanks to Optirun, SIAT Group's brand dedicated to IoT solutions, we can calculate consumption whether it is of tape, cardboard, film, strapping used, and monitor all machine parameters to avoid downtimes.
